

TAKE CONTROL OF YOUR COLD CHAIN.

You've done the hard work and now it's time for the final stretch: getting your temperature-sensitive goods to your customer.

Studies show that in Vietnam, up to 10% of goods spoil due to cold chain failures. Our brand new Olivo Boxes are here to make your cold chain infallible.

The insulating capacity of the container protects its contents against heat to keep the temperature stable and to increase the length of time it is maintained.

Protect your bottom line from wastage – your customers will never be happier.

Flexible

Light

Affordable

Eco friendly

MAKE YOUR COLD CHAIN BULLETPROOF.

In this new era of uncertainty, things don't always go according to plan.

Our Olivo boxes remove uncertainty from your cold chain.

From cold room to display, even if the transport takes longer than expected.

Designed to hold temperature for 24 hours

No mechanical cooling: completely autonomous insulation

Self-contained system that does not require any external power

Can be used anytime, anywhere

During loading and unloading operations

During long distance transport

For overnight deliveries

SIMPLICITY YOU CAN RELY ON.

The insulated container combines efficiency and simplicity in order to meet the needs of modern logistics, ever more demanding in terms of cost, quality, safety and responsiveness.

Food distribution

Healthcare logistics

Last mile logistics

Catering

Dry ice containers

One-piece, solid non-polluting storage capable of handling different temperatures

Containers made for handling that are easy to use, flexible and modular on delivery

Cooling without forced ventilation, using natural convection

Self-contained eutectic refrigeration using negative calories

Cryogenic cooling using the energy produced by the expansion recycled gaseous CO2
