

# TAKE CONTROL OF YOUR COLD STORAGE.

A hassle-free environment to store your goods securely, affordably and out of harm's way. Arctic SuperStores use the latest technology to ensure your business can focus on doing what it does best.

When you need to expand, just add another container – and if your business moves premises, your refrigerated containers can be moved too.

No more bottlenecks and long-term leases: kiss your cold storage headaches goodbye (without breaking the bank).

Flexible

Movable

Affordable

Eco friendly

# ALWAYS A PERFECT FIT, NO MATTER HOW FAST YOU GROW.

Dynamic times require flexible solutions, and there has never been a more dynamic time than today.

Let your competitors deal with global supply chain constraints, bottlenecks, inefficiencies and long-term leases.

You're able to adapt and react to everything this brave new world throws at you.

Your warehouse expands and moves with you - *wherever you go, however you grow.*

The Superstore containers save up to 50% on power usage (lower heat loss)

In case of a reefer failure, others can keep temperature

Option to add partitions to have a multi-temperature facility

Additional benefits

Economy mode to save even more power

Self diagnostic machinery

Full opening double doors

# IT'S PEOPLE-PROOF.

- ✓ Self-bearing on 4 corners
- ✓ Foundation not required
- ✓ Less than 0.5°C temperature variation

**1 hand easy opening door, sensible handle height**
